

Programing Laboratory

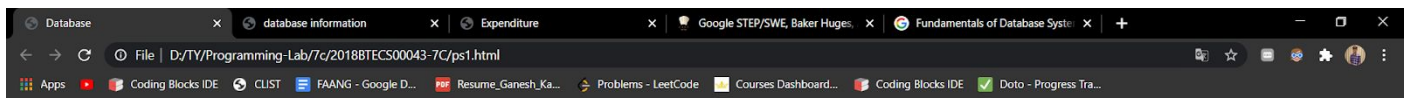

Practical 6B

Name: Ganesh Shashikant Kasar

PRN: 2018BTECS00099

Batch: T6

Problem Statement 1:

Know Everything about Databases here

Structured Query Language

- Data Definition language (DDL):
It contains of commands which defines the data. The commands are:
- Data Manipulation Language (DML):
Data Manipulation Language contains commands used to manipulate the data.
- Triggers:
Triggers are actions performed when certain conditions are met on the data.
- Client server execution and remote database access:
 - Client server technology maintains a many to one relationship of clients(many) and server(one).
 - We have commands in SQL that control how a client application can access the database over a network.
- Security and authentication:
 - SQL provides a mechanism to control the database meaning it makes sure that only the particular details of the database is to be shown the user and the original database is secured by DBMS.
- Embedded SQL:
 - SQL provides the feature of embedding host languages such as C, COBOL, Java for query from their language at runtime.
- Transaction Control Language:
 - Transactions are an important element of DBMS and to control the transactions, TCL is used which has commands like commit, rollback and savepoint.

DBMS Books

1. Database Systems, Korth
2. Fundamentals of Databases, Robert Elmi
3. Database Mangement System, Alman Jeffery

All Time Favorite Books!

1. Rich Dad, Poor Dad
2. Think and Grow Rich
3. The Monk who sold his Ferrari

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file **PS_1.html**

Checker Input

Show ☐ source ☐ outline ☐ image report

Check by No file chosen

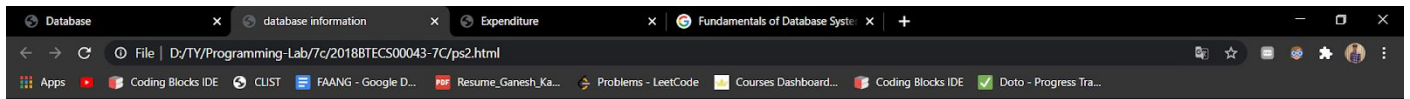

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Document checking completed. No errors or warnings to show.

Used the HTML parser.
Total execution time 4 milliseconds.

[About this checker](#) • [Report an issue](#) • Version: 20.11.1

Problem Statement 2:

Databases

DIFFERENT DATABASE MANAGEMENTS SYSTEMS

DATABASE MANAGEMENT SYSTEMS AND THEIR VERSIONS :

Sr.No	Database Name	Database type	version
1.	MySQL	SQL	NEWLY created
2.	Oracle	SQL	version of this tool is 12c
3.	IBM DB2	sql	Latest release 11.1.
4.	Altibase	hybrid	open source latest

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file PS_2.html

Checker Input

Show

☐ source

☐ outline

☐ image report

Options...

Check by

file upload

Choose File

No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Check

Document checking completed. No errors or warnings to show.

Used the HTML parser.
Total execution time 6 milliseconds.

[About this checker](#) • [Report an issue](#) • Version: 20.11.1

Problem Statement 3:

Expenses Account

My Monthly Expenditure

Sr.No	Expenditure title	Expenditure amount	Total amount allotted
1.	FOOD	3000/-	10000/-
2.	ELECTRICITY	600/-	
3.	CLOTHING	1000/-	
4.	Household products	400/-	
5.	Education	5000/-	
total Expenditure:10000/-

Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file PS_3.html

Checker Input

Show ☐ source ☐ outline ☐ image report

Check by No file chosen

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

Document checking completed. No errors or warnings to show.

Used the HTML parser.

Total execution time 4 milliseconds.
